Almost a Fatality.
Mr. John Irwin, of the 9th con. of Thurlow, was badly injured while on his way to the city this morning. When a flying piece of paper frightened his horse and they started to run. Mr. Irwin pluckily held on to the reins, but was thrown out and dragged a considerable distance. He was taken to the Hastings House, where he now lies in a very dangerous condition.

An Important Judgment.
At Osgoode Hall, Toronto, on May 28th, on application of G. T. Purford & Co., proprietors of the Dr. Williams' Pink Pills, a perpetual injunction was granted by Chancellor Boyd restraining Theodore Sweet, druggist, of St. Catharines, from selling a pink colored pill in imitation of Dr. Williams' Pink Pills for Pale People. It seems necessary to again impress upon the public the fact that Dr. Williams' Pink Pills can only be obtained in packages wrapped around which bears the full, law-protected trade mark, "Dr. Williams' Pink Pills for Pale People." Pills offered in any other form, and notwithstanding anything the dealer may say, are fraudulent imitations and should always be refused.

The Dr. Williams' Pink Pills will be sold to obtain (in confidence) the name of a dealer offering for sale any imitation of their pills, as the company is determined to protect the public against this species of fraud.

Mr. Lott Returns.
Mr. Willie Lott, who left for Chicago a few weeks ago, returned to the city this morning. Mr. Lott enlisted in the 2nd Chicago Regiment of State militia, but on account of refusing to take the oath of allegiance to the Republic he could not go to the front with his regiment. He claims that the State militia are in first-class shape.

The Court of Revision.
The Ketcheson Ward assessments were considered by the Board last night. There were 12 appeals in all, and the following reductions were made: Mrs. Wragg from \$3,000 to \$2,500; S. S. Moore, from \$2,500 to \$2,000; S. G. Retallack from \$2,500 to \$2,000, and S. S. Laxer from \$2,100 to \$1,950.

The W.M.S. Meeting.
The Quarterly Union meeting of the W.M.S. was held in the Holyway at Church yesterday afternoon. Mrs. (Dr.) Cawie presiding. A report of the recent district convention was read by Mrs. Merrill. A splendid paper on temperance was read by Miss Breeze, and an enjoyable hour was spent by the large number of ladies present.

The Vanmeer Case.
Judge Lanier at the Court House yesterday. The Vanmeer case was called on for trial. He was discharged on the charge of assault, but was fined the value of the property destroyed by him. The case was a somewhat peculiar one, owing to the fact that the complainant, the defendant and the principal witnesses for the prosecution were brothers.

The Rolling Mills.

To the Editor of the INTELLIGENCER.

Sir,—It has been a matter of surprise to me that my friend Mr. Wallbridge, being a lawyer, did not wait until the basis and the details of the agreement with the Messrs. Mitchell for removing their rolling mills to Belleville were completed before attacking the scheme so vehemently. The gentlemen negotiating with Mr. Frank Mitchell on the city's behalf had constantly in mind the safeguarding of its interests, and how well that has been accomplished is manifest in the agreement published in the papers last Friday. It is not expected that anyone would be so stupid as to bring an iron industry here at all will be satisfied with any arrangement that may be made; but it seems to me that any progressive citizen who realizes that Belleville must take some commercial risk and make some sacrifice in order to secure some industries, will be satisfied with the guarantees that are offered us.

Mr. Wallbridge will see that his demands (proper demands, but matters which he gratuitously presumed I was ignoring) regarding the employment of men, payment of wages, operation of the works, and the assured length of time that they will run, are guaranteed in the following clause:

"Mr. Mitchell to enter into an agreement that if he fails to operate the plant for at least nine months in the year for at least five years, he will either repay the city the amount of the bonus or convey the plant and building to the Corporation."

Mr. Mitchell stated that if he made a fair success of the business in the first year, he would consider it firmly established as a Belleville and Canadian industry practically for all time.

N. only has the Committee secured the continuous running of the works for nine months in the year, for five years, but, to prevent the possibility of a loss to the City in case any other municipality should offer the Messrs. Mitchell inducements to remove after the expiration of the first five years, the following clause is agreed to:

"If Mr. Mitchell desires to remove the rolling mill plant from Belleville during the second term of five years, he may do so only on the condition of repaying the City the sum of \$25,000.00 and re-conveying the building site."

It will have been observed by Mr. Wallbridge that Mr. Mitchell has waived the question of the water, so that the City will not be required to furnish it free.

To secure the specific performance of what Mr. Mitchell engages to do, he offers the City his bond of \$25,000, backed by his father, a reputed millionaire, about whose proved financial strength I have already written. Mr. Wallbridge says in his letter: "The Mayor takes the idea of giving a bonus without binding these people down in any way." That was an unwarranted, not to say foolish, statement, and probably Mr. Wallbridge will now agree with me that it was.

The extraordinary solicitude of the Pilow HERSHEY Company, rolling mill people of Montreal, for our city is most touching. They are anxious to see that they have any money on the Mitchell plant is affecting to a degree. I have in my possession the very letter from these philanthropists that Mr. Wallbridge quotes in full. It is marked "confidential," but I noticed that it was evidently not meant to be so, as the letter was typewritten and the name and address of the gentleman to whom it was written was filled in with pen and ink. It is not the extent of the offer, but the people to work against an iron industry coming here, for their own selfish motive of preventing competition in the trade that has made them millionaires. They find Mr. Wallbridge opposed to the proposal, and a letter from him is handed to him in order that he may for his benefit, poison the minds of our citizens through the press against favoring an industry that will be of untold benefit to them. It is a most contemptible and gross impertinence for such outsiders to interfere in our affairs. I am astonished that a gentleman who has occupied the Mayor's chair in this city has allowed himself to be used in this way. The statement that Canada does not furnish a profitable market for the manufacturing of iron is the very nonsense. I have looked up the financial rating in Dun's Commercial Agency Reference Book of the iron manufacturers of Montreal and I find the following:

Pilow & HERSHEY Company, A.1, which means over a million of capital and the highest grade of credit; Peck, Benny & Co., and the Montreal Rolling Mills Co., have a credit equally good and a rating almost as high.

Another proof that there is room for new iron works, in Ontario at least, is the fact that the Legislature of the Province permits municipalities to grant bonuses only to iron industries.

It is not in human nature to desire competition. If I asked a lawyer to-day about the prospects for a young man in the legal profession coming to Belleville, or for a man to study it, he would probably tell me that there is no room, that there are far more lawyers now than can earn a living in the profession and he would utter a warning against either proposal. A shrewd answer would be given by many men in every profession and business; but bright, capable fellows, who have the opportunity, want to enter the profession and go into business, and they will succeed where others have failed. It will be, I believe, with the Messrs. Mitchell. They command the elements of success in the iron trade, and with them established here, Belleville will get a share of the business that has made men millionaires in Montreal.

I have just a word or two for Mr. Price. If Montreal iron men are not scared about the prospect of the Mitchell coming to this county, will Mr. Price explain the worry elicited by the efforts of the Pilow & HERSHEY Co. to keep them out of Belleville? I stated that to my knowledge the

Pilow & HERSHEY Company and Messrs. Frothingham & Workman had been carrying on rolling mills successfully on the Leachina Canal at Montreal for thirty-four years. To be more accurate regarding the latter firm, I should have called that end the business "The Montreal Rolling Mills Company, Limited." The hardware branch and the rolling mills branch are exactly alike in Dun's Reference Book—both equally successful, doubtless.

While writing this letter I was informed that a friend in Belleville sent an order last week to a rolling mill in Montreal for goods and a reply was sent that they were so pressed with orders that they could not fill it for three weeks. The order was sent to the Hamilton rolling mill and they replied that they could not send the goods for seven weeks, as they were so busy. The gentlemen, have declared was shut down and bankrupt. I have been informed that they are running two shifts of men in twenty-four hours. I have seen their statements for what they are worth, but they are so important that I have taken steps to verify them.

Special Sale of Boys' Suits.

The Oak Hall are putting out fully four hundred boys' suits to be sold next Saturday from 9 o'clock in the morning until 11 o'clock at night. These suits comprise one, two and sometimes three suits of a line. Average reduction one third off. Mothers who are looking for snaps in clothing for the boys, want to see on Saturday, sure.

June Weddings.

A very happy event occurred at the Mansie yesterday evening when Mr. Harry Naylor, accountant for Paterson & Son Co., and Miss Lily Weese were united in the bonds of matrimony, by the Rev. M. W. Maclean. The groom was supported by his brother, Mr. Ed. Naylor, and Miss Franklin Wilson acted as the bride. Only a few intimate friends were present. The presents were very numerous and costly. The young couple, who are both very popular throughout the city, will take up their residence on Murray street.

ORRILL—MC DONALD.

A pretty June wedding took place last evening, when Miss J. McDonald was united in marriage to Mr. O. Orrill, G.T.R. fireman. Mons. Farrelly performed the ceremony. The bride was assisted by her sister, Miss Hattie, and the groom by Mr. T. Crozier. The bride wore a becoming suit of blue trimmed with chiffon. The presents were both numerous and costly. The young couple will take up their residence here.

BASEETT—MEADOWS.

Mr. R. W. Bassett, G.T.R. operator of Belleville, was married in Port Hope last night to Miss Florence Meadows. The ceremony took place at the residence of the bride's mother and was performed by Rev. Mr. Johnson. The happy couple left on the midnight train for Portland, Maine, where they will spend a brief honeymoon before taking up their residence in this city. Mr. Bassett has many warm friends here and they wish to look next to the young couple happiness and prosperity.

CAVELEY—POSTER.

Mr. Martin Foster, of Northport, and Miss Lily Caveley, of Sidney, were married yesterday. An extended report, prepared for the INTELLIGENCER, is crowded out of this issue, but will appear to-morrow.

SOLLEY'S FIGHT AT SANTIAGO

A Graphically Circumstantial Account of the Bombardment.

The American Gunboat was the most active sort and hardly a shot was wasted. The Spanish fire on the other hand was wild, and their 300 odd shells did not injure a Yankee ship.

On board the Associated Press dispatch boat Dandy, off Port Antonio, June 1.—(Delayed in transmission.)—The squadron, commanded by Commodore Schley, attacked the batteries at Santiago de Cuba yesterday afternoon, and engaged the ships of Admiral Cervera, which were lying in the harbor. The Spanish flagship, Cristóbal Colon, was struck twice by shells fired from the Massachusetts, and the Spanish batteries were badly damaged by the fire of the United States cruiser New Orleans. The Spanish fleet about 300 shells and the Americans fired about one-fourth of that number.

No American vessels were hit, and no one on board the American ships was injured. The Spanish loss was not heavy.

The Indefatigable on Hand.

Kingston, Jamaica, June 3.—A despatch from Port Antonio says that the British second-class cruiser Indefatigable returned from the bombardment of Santiago on the 1st. The cruiser has been damaged, and is now being towed to the harbor. The ship's company was on leave of absence and the Government medical officer was taken aboard the ship. The Indefatigable was shot by the Spanish fleet, and the ship was damaged. The ship's company was on leave of absence and the Government medical officer was taken aboard the ship. A BIG CASH

IN BOYS' SUITS, Saturday, June 4.

We are busy selecting from our regular stock a big lot of boys' two and three piece suits. When we are through they will amount to

Fully Four Hundred.

They will comprise all lines that have run down to one, two and three suits of a kind. There is positively nothing wrong with them, but we must clear out the odds and ends.

PLAIN FIGURES.

regular prices will be marked in plain figures, the reduced price in red ink, and the average reduction will amount to

FIFTY PER CENT OFF.

This opportunity does not occur often in a store that sells goods regular at such low prices, so we advise you to take advantage of the opportunity.

ALL DAY SATURDAY.

Until eleven o'clock at night, this offer is open to you. Suits will be laid away by making a small deposit.

REMEMBER THE DAY.

YOU CAN IF YOU WISH.

Dr. Ward's Blood and Nerve Pills have been a great boon to my daughter Maggie. Prior to taking them she had been suffering from excessive nervousness for a long time, and her nerves were so badly affected that she was unable to do any work. After taking the pills for a few days, she felt much better, and after a week she was able to do her work as usual. I am very much pleased with the results, and I am sure that the pills will be of great benefit to many other people who are suffering from nervousness.

THERE'S A SENSE

Of sovereignty in the breast of a business man who has his house well organized and regulated and feels that he is getting his fair share of trade.

The feeling of kingship might well be entertained in regard to the management of this Tailoring house.

Everything is done by rule and system; all force are properly marshalled; every movement is duly governed and controlled. Under such regime it is not to be wondered that success comes to the house.

JUDGES AND THEIR SALARIES

Solicitor-General Fitzpatrick's Bill Struck a Snag.

Mr. Davis Resists Against the Increased Expense of the Bill.

Would involve, and Mr. Foster charged him to take care of it.

Second Reading.

Ottawa, June 3.—The Opposition was very emphatic yesterday morning and a number of its members, including the Executive Committee of the House, were present in any way which might be a sort of "you scratch my back and I'll scratch yours."

The members of the Reform Association will be surprised to learn that no Government action has been obtained by any one until the relative and personal friends of the Executive Committee have been safely placed in any way which might be a sort of "you scratch my back and I'll scratch yours."

The feeling of kingship might well be entertained in regard to the management of this Tailoring house.

THERE'S A SENSE

Of sovereignty in the breast of a business man who has his house well organized and regulated and feels that he is getting his fair share of trade.

The feeling of kingship might well be entertained in regard to the management of this Tailoring house.

Everything is done by rule and system; all forces are properly marshalled; every movement is duly governed and controlled. Under such regime it is not to be wondered that success comes to the house.

THE GOVERNMENT RESPONSIBLE.

The principle of the new franchise Bill is bad, but the Senators were wise in not making themselves responsible for a dead lock by throwing out the measure. The Laurierists will now be responsible for any dead lock that may occur, if they refuse the just and simple amendment of the Senate.

REVIEWS BY SYDNEY.

It is a night and the city sleeps. No sound disturbs the slumbers of peaceful Belleville except the sighing of the wind, the rustle of leaves in the trees, and the heavy footstep of Sergeant McCruden as he patrols his beat looking for nocturnal ball players. As we wander down the streets, now in a Tremont like state of solitude, we also hear in the far east a low, rumbling, ominous sound and we realize that the members of the Executive Committee are in their lair, ready to practice their heavy rolling artillery preparatory to shelling the opposition fortifications at the approaching grand pow-wow.

With surprise we notice that while all the rest of the city is steeped in darkness, a faint gleam of light may be observed coming from the windows of the office of the "Daily Buzzard." We push by the door and enter a gloomy room. Sitting at a table and badly angled are two men. Although their heads are towards us, the spell which greatness always throws around it overpowers us, and we recognize in the man the wonderful Head of the redoubtable Mrs. W. J. Baker. We push by the door and enter a gloomy room. Sitting at a table and badly angled are two men. Although their heads are towards us, the spell which greatness always throws around it overpowers us, and we recognize in the man the wonderful Head of the redoubtable Mrs. W. J. Baker.

What is it that this employs the hour which should be spent in slumber? What mighty scheme for the annihilation of the lot of Belleville workmen is being devised by the prolix brain which directs the editorial page of the esteemed Buzzard? Or who it the unfortunate wretch who is next to fall under the stinging lash of belittling and scolding rhetoric, with which the head is wont to scold the enemies of the Boss? Or are those earnest toilers only casting the horoscope of the latest specious relative of the Boss to arrive on the scene, or are they simply barrowing for the beastly details of the latest case of infanticide? We are not left long in the matter, for the redoubtable Head suddenly springs to his feet, waves the compass over his head and cries aloud in his best ventriloquist voice, "Tremble, Borelli, it is I, the Boss, and thus we tumble and go quietly out."

The Moira still ripples onward to the bay, the wind still sighs among the trees, the Sergeant continues his weary patrol, the man in the moon takes another chug of tobacco and winks playfully at a coquetish plaid, the whole universe wags quietly on, while the Boss, who is still in the mood of the mighty fact that from the intellectual storehouse of the Buzzard has just come forth a brand-new, brain-catching joke.

—Boat owners who anchor in the harbor are bitterly complaining of the condition of the water, which is in a very filthy state caused by dirty oil etc. from the sewer which empties out the refuse from the gas houses and not allowed to run into the harbor at all.

—What sort of condition the U. S. volunteer army is in for an immediate inspection of Oka can be inferred from the fact that a Kansas regiment turned up at Chikama the other day not only without arms and ammunition, but destitute of a single canteen or blanket.

Such Was the Condition of Miss Rodd, of Brooklyn.

An Editor Relates the Story of Her Illness and How a Remarkable Change in Her Condition was Brought About.

From the Gazette, Whitby, Ont.

For some five years the editor of this journal has made weekly visits to Brooklyn in search of news. One of his earliest recollections of the visit was the fact that Miss Rodd was very ill. Miss Rodd was well known, and as weak as a week rolled round, it was natural to ask how she was getting on, and the reply always came that she was no better. Time went on and it became settled that Miss Rodd was confined in bed and that she would continue until a kind Providence took mercy on her by allowing death to end her sufferings. None of the villagers anticipated any other ending. Her condition could be better described than I have described, therefore, when Mrs. Rodd called one morning with "Well, editor, we have a change of conditions which I thought I would like to tell you."

"What is it?" "Why, Miss Rodd has gone on a visit to Columbus friends."

"Why, I thought she was a confirmed invalid?" "So she was, but she has been improving so much lately that she is now able to help herself a good deal, and it was thought a change of scene would do her good."

"That is certainly good news," replied the quill-pusher, "and good news too, but what cured her?" "Dr. Williams' Pink Pills," replied Mrs. Rodd.

We then decided to ask Miss Rodd upon her return for an interview, but it was some time before it was possible to get to the limit of time at our disposal between trains, and partly owing to a desire to wait and see if the improvement was likely to prove permanent. However, after many "u-o-o's," we finally called at the home of Mrs. Rodd, a sister of Miss Rodd's, who had carefully cared for her during the long illness. At the request of the editor Miss Rodd made the following statement:

"I am fifty years of age and have lived in Brooklyn ten years. Five years ago I was taken ill with acute rheumatism, and have not done a day's work since. I could not get up with my feet and the swelling extended to my arms, wrists and shoulders, and finally settled in my neck. I had such pain that I was obliged to use walking sticks to get on in moving about, and two and a half years ago the stick had to make way for a cane. At this time I used to get up a little each day, but it was not long before I got completely disabled, after ineffectually being treated by two physicians and trying the different medicines recommended for my ailment. While I was in this helpless condition my niece came in one day and prevailed upon me to try Dr. Williams' Pink Pills. After taking two boxes I felt a slight change for the better, so I continued to take them, with the effect that I continued to improve slowly ever since. I am now able to do my own housework and have gained in flesh. I can stand now, walk about and even get in and out of the buggy upon the occasion of my late visit to Columbus. Since taking the pills I feel stronger and my reason for still using a cane is on account of my knee which is weak, and a desire to not overtax my strength."

When I was first taken ill, I was the first time in twenty-one months that I was able to put my foot outside the door. I am now able to do my own housework and have gained in flesh. I can stand now, walk about and even get in and out of the buggy upon the occasion of my late visit to Columbus. "Ah, this is another thing," said the lieutenant. "He was so interested in the mechanical details of the 'house' that he scarcely stopped to talk of life and death." Lieut. Hobson might have been lecturing to a class of cadets on the theory of the hull design of a ship, so deliberate was his manner.

A Desperate Strain.

The preliminary work of this desperate undertaking was a strain upon the officers and crew of the Merrimack, for the crew worked on board the Merrimack, while they lay close to the New York, and not other ships, as they passed the collision.

BOMBARDMENT OF SANTIAGO

The Forts Silenced After Three Hours of Effective Firing

Details of the Manner of the Attack on the Spanish Armada by the American Fleet. The Signal Shot fired by the Iowa & Connecticut 12-inch shells—The Results of the Engagement

On Board the Associated Press-boat Dandy, off Santiago de Cuba, Monday June 7.—The American fleet this morning engaged the Spanish battery, defending the entrance of the harbor of Santiago de Cuba, and, after a three-hour bombardment, silenced every one of the forts, destroying several earthworks, and rendering the Estrella and Catalina batteries inoperative. The Spanish fleet, the most formidable in the world, was anchored in the harbor, six miles off shore, the Brooklyn leading, followed by the Maryland, Texas and Oregon, armed with the latest and most powerful guns. The Spanish fleet was far out in the left flank, watching the riflemen on shore. The Dolphin and Porpoise did similar duty on the right flank.

The line headed by the New York, attacked the Spanish earthworks near Morro Castle. The Brooklyn column took up a position opposite the Estrella and Catalina batteries, the Maryland, Texas and Oregon, the second line, the New York leading, with the New Orleans, Yankee, Iowa and Oregon, armed with the latest and most powerful guns. The Spanish fleet was far out in the left flank, watching the riflemen on shore. The Dolphin and Porpoise did similar duty on the right flank.

THE FORTS SHATTERED.

The American Warships Fire About 1,000 Well-Directed Projectiles—The Spanish Fire Ineffective.

Cape Hattin, Hagat, June 8.—It appears from the best information obtainable at this place, the cable station connecting with Santiago de Cuba, that the bombardment was highly successful. The Spanish forts were silenced, and the Spanish fleet was far out in the left flank, watching the riflemen on shore. The Dolphin and Porpoise did similar duty on the right flank.

WERE IN THE FIGHT.

Four Men Who Were in Dewey's Battle at Manila Relate and Give Some Additional Interesting Details.

San Francisco, Cal., June 8.—Among the passengers who arrived on the Delgo yesterday from Hong-Kong were four men who participated in the fight at Manila on May 1. They are Paymaster U. A. Lee of the transport boat McCulloch, Dr. Charles P. Kinkadee, surgeon of the Olympia, Ralph Phelps, secretary to the captain of the McCulloch, and J. C. Evans, surgeon of the Boston. They left Manila on May 6.

Dr. Kinkadee gives a graphic account of the battle of the Philippines. He was on the Olympia through it all. In the first assault the flagship took the lead, the other vessels following in her wake at four ship's length. The Spanish fleet was approached by land, each turn bringing the Spanish fleet into view.

During the first fight the Spanish Admiral's ship put bravely out of the line to meet the Olympia. The entire American fleet concentrated fire on her and she was so badly injured that she turned around to get back. At this juncture the Olympia lay by an eight-inch shell which struck her stern and pierced through almost her entire length, exploding finally in the engine room, wrecking her machinery. This shell killed the captain and 60 men and set the vessel on fire. In the heat of the fight two torpedo boats were sent to attack the fleet. They were allowed to come within 800 yards when a fusade from the Olympia sent one to the bottom, with all on board. The second boat was later turned up on the beach, overturned and burned.

In the second fight the Baltimore was sent to silence the fort at Cavite. She ploughed a road of smoke and shot, and all her batteries on the fortifications. In a very few minutes a shell struck the central battery, and the fort blew up with a deafening roar.

In taking possession of the land, four hundred wounded Spaniards fell into the hands of the Americans, and nearly 300 dead were accounted for on the Spanish side.

The Spanish loss footed up 400 killed, 800 wounded and a property loss of anywhere from \$5,000,000 to \$10,000,000.

Aguinado's Account of the Heavy Fighting at Manila.

London, June 8.—The Hong-Kong correspondent of the Daily Mail says: United States Consul Aguinado has received the following letter from Manila, the insurgent leader in the Philippines:

"Before opening an attack upon any town I summoned the Spanish officers in command to surrender. In one case two of the officers so summoned replied by saying that the garrison was not quite ready to fight, and he asked if I would defer the attack for three hours. I complied. The first engagement we had with the Spanish occurred on May 24, when we captured 19, with their arms and ammunition. Toward evening we had a second battle. One hundred and ninety Spanish soldiers and several local natives participated. We took four killed. The Spanish loss was 10 killed, including one officer. The result of this engagement was that fighting became general throughout the Province of Cavite. After four days' fighting, over 2,000 Spaniards were taken prisoners, including many officers and General Legarda and General Cavite, who handled me his sword, revolver and golden belt, and a formal letter of surrender."

COMEDY AND TRAGEDY OF LIFE.

The Oriental Courier and How the Plot
Unfolded. The Lesson Is Not to
Do Evil to Others—The See-Saw of
Life Illustrated.

Washington, June 8.—Rev. Dr. Talmage this morning preached from the text, Esther vi. 10, "He they hanged Haman on the gallows that he had prepared for Mordecai."

Here is an oriental courier, about the most offensive man in Hebrew history, Haman by name. He plotted for the destruction of the Israelite nation, and I wonder not that in some of the Hebrew synagogues to this day when Haman's name is mentioned the congregation clank their feet and stamp their feet and cry, "Let his name be blotted out!"

Haman was prime minister in the magnificent court of Persia. Thoroughly acquainted with the honor and glory of the empire, he was a man of great power and influence. Coming in one day at the gate of his palace, he saw a man of lowly birth, a Hebrew named Mordecai, upon the paving stones of the street, leading his horse and taking off his hat. He was a good man and would not have been negligent of the courtesies of life, but he felt no respect either for Haman or the nation from which he had come. So he could not be expected to give him the honor of a bow, and he refused to do so.

Mordecai, however, had a great advantage over Haman. He was a Jew, and Haman was a Gentile. He was a Hebrew, and Haman was a Persian. He was a man of lowly birth, and Haman was a man of high birth. He was a man of great power and influence, and Haman was a man of great power and influence. He was a man of great power and influence, and Haman was a man of great power and influence.

To make a long story short, through Queen Esther this plot was revealed to her husband, Ahasuerus. One night Ahasuerus, who was afflicted with insomnia, in his sleepless hours calls for his secretary to read him a few passages of Persian history, and so while away the night. In the book read that night to the king an account was given of a conspiracy, from which Mordecai, the Hebrew, had saved the king's life and for which kindness Mordecai had not received any reward. Haman, who had been fixing up a nice gallows to hang Mordecai on, was walking outside the door of the king's sleeping apartment and was called in. The king told him that he had just read to him the account of some one who had saved his life, and he asked what reward ought to be given to such a one. Mordecai, however, was not in the room, and Haman, who was a man of great power and influence, decided to reward himself.

What a spectacle! A comedy and tragedy at one and the same time. There they go! Mordecai, who had been despised, now, started and robed in the stirrup, Haman, the chancellor, aloft, holding the plumed, chanting, clanking, Mordecai bends his neck at last, but it is to look down at the degraded prime minister walking beneath him. Haman, who was a man of great power and influence, decided to reward himself.

he only did what the Persian king would have done in any way to yield to a religious fanatic. If he had been a man of religious compromise, would never have been thrown out of the door of the king. It might have made some arrangement with King Darius whereby he could have retained part of his favored religion, and yet making himself a completely obedient slave to the idolatry. But Haman was a man of great power and influence, and he was a man of great power and influence.

Mordecai, who had been despised, now, started and robed in the stirrup, Haman, the chancellor, aloft, holding the plumed, chanting, clanking, Mordecai bends his neck at last, but it is to look down at the degraded prime minister walking beneath him. Haman, who was a man of great power and influence, decided to reward himself.

What a spectacle! A comedy and tragedy at one and the same time. There they go! MUCH MORE SHOT AND SHELL

Again Poured Into Santiago by
the American Ships.

Base of Supplies Seized by the U. S.

Ships and Stripes Hoisted at Guan-
tanamo and the Warship Maribouhead

Left in the Outer Harbor in Charge—
Santiago Bombardment Thought to

Have Been to Cover Landing of Troops.

London, June 11.—A cablegram from
Havana, received here yesterday, via Ha-
vanna, says that the American fleet again
bombarded Santiago to-day. The engage-
ment lasted from 8 to 11 o'clock and cov-
ered the landing of the troops. The Span-
iards claim the Americans were repulsed.

A Lieutenant From Cuba.

New York, June 11.—Lieut. Heno of
the United States navy reached here yester-
day on the steam yacht Harpoon, accom-
panied by a Spanish guide, with the
news that he has been traveling for some
time in Cuba. He is said to be the bearer
of important documents for the State
Department at Washington.

Ordered to Manila.

Washington, June 11.—Orders were
issued for the U. S. S. Albatross and the
U. S. S. Albatross to join the command
of General Merritt for duty in the Philip-
pines. The Albatross is to leave for the
Sixth Army, stationed at Washington
Harbor, and for Mr. Meyer, will leave
Toledo for San Francisco.

QUANTANAMO THEIR BASE.

Excellent Harbor Now Commanded by
the American Fleet. Clear

On board the Associated Press dispatch
boat Wanda, off Santiago de Cuba, June
9.—(Via Kingston, Jan. 11.)—The
navy availed itself of the opportunity
of the Rear-Admiral Sampson and Com-
modore Schley have battered down the coast
defenses of Southern Cuba, and have
seized up Admiral Cervera's fleet.
Scout boats running under the shadows
of El Morro have cut the Haytian cable
and now hold 25 miles of the coast east
of Santiago de Cuba, including Guan-
tanamo Harbor. Under the cover of the
fleet the coast of Cuba may be easily
invested by land and sea. Admiral Cer-
vera's fleet annihilated and the entire
harbor and its town and harbor seized
and held after a short campaign. The
harbor of Guanatanamo is a fine base for
land and sea operations. The harbor is
capacious and has forty feet of water.
The land approaches are not so precipitous
as at Santiago de Cuba. The low-
lying hills can be easily crossed with
trains of siege guns, and there are level
roads to Santiago de Cuba, 35 miles dis-
tant, where a few mountain batteries
beyond the reach of the fleet will be
taken on an eminence commanding the
city and the Spanish ships.
Guanatanamo is an important place. It
has six miles of water harbor, and will
be of great value to the United States as
a navy and army supply station, coaling
port and cable terminus.
The Spaniards made last night defense.
Their batteries were silenced on Tuesday
by the Maribouhead in a few minutes
firing at 4,000 yards. A small Spanish
gunboat ran away.
The Oregon, Maribouhead and Yankee
hold the harbor, waiting to land marines.

Belgium Bombarded.

Havana, June 11.—8.30 p.m.—Several
American warships yesterday bombarded
Belgium, some distance east of Angu-
lones, near the railway line to Santiago de
Cuba. Official advices from Santiago say
that the bombardment caused no damage.

Go Ahead Uncle Sam.

London, June 11.—The St. James'
Gazette yesterday afternoon published a
long editorial pointing out the hopelessness
of any further Spanish resistance, and
suggested the Americans seek a settle-
ment of the Cuban question in Spain. It
says: "There is no need of an invasion,
but the mere presence of a strong arm-
y, which the Spaniards could not drive
off on the coast would produce a tremen-
dous effect, and there are numerous un-
settled exchanges where the Americans
could co-operate with the Spaniards."

"Of course there are powers in Europe
who would not like to see the Spanish
with great disgust, but if the Americans
are going to be frightened by the vague
threats of the European powers, they must
be very timid. Let them consult the Sultan
and remember that England is their
Russia for the time being."

Second Militia Expedition.

San Francisco, June 11.—Wednesday,
June 11, is the date scheduled for the
sailing of the second Manila expedition.
The fleet will include the China, 1,100
men; Colon, 800; Albatross, 500; San-
togo, 800; Morgan City, 700, and City of
Paris, 800. It being announced last night
that the Morgan City and San Diego would
be added. The Manila expedition, of which
W. H. Bryan is the colonel will probably
go with the expedition. The fleet guns of
the battery will be moved to the ships.
One gun on each ship will be in-
stalled on deck for the purpose of defense.

Fired on a Railroad Train.

New York, June 11.—A dispatch to
the World from Port Antonio, says: The
United States dispatch boat Dolphin on
Monday shelled and struck a railroad
train on the coast. The train was full of
Spanish troops. Many of the soldiers were
killed.

Queen Regent May Retire.

London, June 11.—The Home office
circular of the Daily News says: A new
appeal has been made to the Pope to
interfere with the interference of the
interference of the powers. It is
asserted that the Queen Regent has even
submitted to the Pope the question of her
retirement in order to allow papal dis-
content.

HAVING had thirty years practical experience in tuning, repairing and lining pianos in all different branches is silent proof that I am fully competent to do a better job in tuning and repairing than that have not had any experience in the manufacture of pianos.

permanently, I ask all those wishing for their pianos properly tuned and repaired to give me a call. References given if required from those I have tuned for. Old pianos polished and made good as new. Also in Pianos and Organs from the best makers and at the lowest prices. Write upon me before placing your orders.

American Pickets Had Another Brush at Guantanamo

Spanish Guerrillas Are Troublesome Our American Men Killed and Two Were Wounded—Another one Wounded on the summit of a Hill in a Good Position—Ticky Work on the Part of the U. S. Soldiers.

Off United States Camp, Guantanamo Bay, Sunday, June 13, Noon, via Kingston, Jamaica, June 10—(11:30 a.m.) When the Associated Press despatch boat Dauntless left Guantanamo Bay early this morning, after the 18th regt. of the United States Marines, under Lieut. Col. Huntington, and the Spanish guerrillas, under Lieut. Wendell O. Neville and Lieut. Shaw.

At 3 o'clock the firing was again renewed by the Spaniards, who appeared off the camp on the edge of a small island, about a mile to the northeast. It was promptly returned by thirteen rifles and a field gun, and in a short time all signs of the enemy had disappeared. Col. Huntington sent to the landing for a second 3-inch gun, which was dragged to the hill and placed in a position at the summit. The Spanish lines thrown around the camp kept up a popping all the morning, but with no much result. Morning the Maribouhead left the harbor and threw a few shells into the woods.

To the great delight of the marines in camp Lieutenants Neville and Shaw, with 80 men of Company D, returned in the morning, but much exhausted by 18 hours of picket duty. One man, Sergeant Smith of Company K, had been shot through the abdomen and instantly killed. During most of the day and night, Lieut. Neville and his men had been surrounded by a much superior force, but men and officers behaved splendidly, and although the firing of the Spaniards was constant and heavy, Lieut. Neville's detachment held its own, inflicting much more loss than it sustained. At least five Spaniards are known to have been killed, and as Lieut. Neville's men kept up a steady fire throughout the night and the enemy was not at a great distance. It is believed that the Spanish casualties were heavy.

The battleship Texas arrived this morning and sent ashore 40 marines and two automatic Colt guns as reinforcements. The Maribouhead also sent an additional small detachment.

Private Bartholomew McGowan of Company D will lose his hand, which was shattered by a Mauser bullet. Amputation will be necessary. The Maribouhead's pilot, who was shot through the leg while guiding the cruiser out of harbor this morning, holds the rank of Colonel in the Cuban service.

Germany May Mean Business.

London, June 14.—The Berlin correspondent of the Times remarks the fact that "with four warships already at Cavite and with the Darmstadt on the way with fourteen hundred men, Germany will have a force of 8,000 marines at Manila."

The Singapore correspondent of the Times says: "Letters received here from Manila, dated May 26, say that the prolonged conference between the German Consul and Captain-General Augusti were exciting attention in Manila, and had led to the belief that Germany had designs on the South Archipelago."

According to a special despatch from Shanghai the German steamer Parnach about to leave there for Manila with secret orders, it is believed, from the German Government.

Gen. Fando's Strength.

London, June 14.—The Madrid correspondent of the Standard says: "The army corps under General Blanco in Eastern Cuba is composed of four divisions, under Generals Linera, Lopez, Alcala and March, stationed respectively at Santiago, Holguin, Manzanillo and Puerto Principe. General Linera has 8,000 men, who, with the 2,000 under Admiral Cervera, are considered by the Government as sufficient to repel invasion. There is a general feeling here that Germany will interfere in the Philippines."

Canadian Volunteer Killed.

Buffalo, N.Y., June 14.—Herbert Hodgson, a member of the 68th Regiment of volunteers, which left here some weeks ago for the front, was killed near Washington, D.C., yesterday, by being run over by a railroad train. Hodgson was a Canadian, hailing from the vicinity of Hamilton.

WILL WELCOME PEACE PROPOSALS

Providing They Do Not Examine From America.

Buenos Aires, June 14.—The special Madrid correspondent of the Herald says: "The city telegraphs an interview, which he claims to have had with Senor Marino, the private secretary of the Spanish Premier, Senor Sagasta, in which the secretary is quoted as having formally declared that the Spanish Government will not accept any peace proposal which is submitted, 'on the express condition that it does not emanate from the enemy.' But the Premier's secretary is said to have added: 'The international mediation which would be welcome upon the part of Spain would be in the case of the initiative being taken by France or Austria.'"

The farmer is supposed to be as healthy as it is possible for a man to be. People smile at the idea that a farmer can ever be ill. His occupation is supposed to be an assurance of good health. The country is frequently the scene of the most hard working men, and the most hard working men are supposed to be the most healthy. CHAPLEAU CROSSES THE BAR

The Eloquent French-Canadian Has Breathed His Last.

Surrounded by Relatives the Recent Lieutenant-Governor of Quebec Passed Away From Death—Called the Distinguished Statesman Shortly After Noon on Monday—A Sketch of the Career of a Noted Personality.

Montreal, June 14.—Sir Joseph Adolphe Chapleau died at four minutes to 1 o'clock yesterday afternoon.

The Hon. Sir Joseph Adolphe Chapleau was the son of the late Pierre Chapleau by his wife Zoe Sigouin. He was born at St. Thereses du Bas-Paradis, Que., on November 16, 1840. He was educated at the

SIR ADOLPHE CHAPLEAU.

College there and at St. Hyacinthe. On leaving college he went to Montreal to begin the study of law. In 1861 he was called to the bar and devoted himself to criminal practice. He practiced law in English, though slightly less admirably than his French, was such as to place him in the front rank of political debaters.

At the union of the provinces in 1867 Mr. Chapleau entered the Quebec Legislature as a member for Terrebonne. He became Solicitor-General in the Outremont Administration, Feb. 1878, being afterwards under Provincial Secretary under Mr. de Boucherville when the latter was deposed by Lieut.-Gov. Laflamme. In 1878 he was chosen leader of the Conservative Opposition in the Quebec Assembly, and as such until Oct. 1879. In 1878 he was chosen leader of the Conservative Opposition in the Quebec Assembly, and as such until Oct. 1879. In 1878 he was chosen leader of the Conservative Opposition in the Quebec Assembly, and as such until Oct. 1879.

his death. Among other positions he was a director of several financial corporations. In November, 1874, Sir Adolphe married Marie Louise, daughter of Lieut.-Col. Charles King of Sherbrooke, Que.

AFRICAN TROUBLE SETTLED.

Convention That Satisfies Both English and French Demands.

London, June 14.—The Anglo-French convention, with reference to the disputed territory in the Niger Valley, was signed yesterday. Franco agrees to evacuate Kint, Kori, Abilgou, Kiam, Boussa, Gambia and Ilo, but she retains Niki. Furthermore, on the left bank of the Niger, the French got a triangular piece of territory, whose base extends from Say to Ilo. In return they give Great Britain Bornu, including the portion east of the meridian passing through Bama. On the right bank of the Niger the French got the country from Say to Ilo, and also Gumbi. Beyond this they grant 80 years' leases of bonded areas at Liaba and facilities for transit in bond. This is to secure the benefit of the navigable portion of the river.

In return they give 80 years of real property for the whole west coast colonies from the Librarian frontier to the Niger. With respect to the Gold Coast, the French evacuate Wa and adjoining else Ilo. In return Great Britain gives up Bona and Dawkila and accepts the Volta as the best natural boundary. The French retain Mossi, which they have held for 18 months.

The revolution which has prevailed in Venezuela has been terminated by the capture of Hernandez, its leader. President Andrade is now firmly entrenched in office at Caracas.

Weigh Yourself before Taking Them.

GAINED 22 POUNDS.
I have more faith in Dr. Ward's Blood and Nerve Pills than anything else I have ever used. Since using them I have recommended them to several of my friends who were troubled as I was, and now they are in splendid health. I had been a sufferer, like a great many other women, with a disease peculiar to the sex. I tried everything I could read or think about to help me, but was getting worse instead of better. My condition was terrible—I was losing flesh and color and my friends were alarmed. I consulted a doctor of my town and he said I would never get better; that I would always be badly delicate, and that medicines were of little use to me. Hearing what Dr. Ward's Blood and Nerve Pills had done for others, I determined to try them myself, and to-day I weigh one hundred and forty pounds, while before I weighed only one hundred and fifteen pounds, and now I have a constitution that is hard to beat. I have not suffered any pain in months. I earnestly hope that Dr. Ward's Blood and Nerve Pills will cure every woman suffering as I did. Sincerely yours, MARY COLE, Simco, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c per box, 5 boxes for \$2.50, at drug stores, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

THE COUNTY COUNCIL.

A Quiet Session—The Warden's Address—Vote of Thanks to Col. Ponton—Mr. Flint's Office.

The County Council met at two o'clock Monday afternoon, the following members being present: Warden, Mr. Porter, Messrs. H. C. Dech, Dwyer, McFarlane, Haidy, Packer, Parker, Clark, Kirk, Goss, English, Landon and Landon.

The Hon. the Warden then delivered his address. He was glad to find the members all in good health and hoped that they would have a profitable and harmonious meeting. He was glad to note the excellent prospects for good crops and also the progress of the various public works which were everywhere visible. He referred to the business which would probably come up, particularly the question of taxation. He hoped all the discussions would be tempered by fairness and calmness.

Several communications were read and referred to their respective committees. Mr. Kirk presented the report of the Superintendent of Roads and Bridges, and on motion this report was referred to the Committee of the Whole on Roads and Bridges.

It was moved by J. S. Denech, seconded by J. Holgate, and carried unanimously, That the thanks of the Council be and are hereby extended to Col. Ponton for the handsome photo of his grandfather the late William Hutton, Esq., who was the first Mayor of the County of Deseronto, and that the same be forwarded to the Col. by the Clerk.

On motion it was decided to have the photo hung over the Warden's chair under that of Her Majesty the Queen.

The Council went into committee of the whole on roads and bridges. The report of the Superintendent was received and laid on the table.

The committee rose and reported progress and asked leave to sit again. The Council adjourned.

TUESDAY MORNING'S SESSION.
The Council assembled at ten o'clock, all the members being present. The Warden referred to the presence of Mr. S. Russell, M.P.P., and Mr. G. E. Doroche, of Deseronto, and invited them to take a seat with him in the bar.

A communication was received from Anson Jones stating that he had received a notice from an unscrupulous individual asking the Council to pay damages. Referred to the Committee on Roads and Bridges.

A communication was read from the Council of Deseronto regarding a bridge over the Lake at Amable and asking that it be either repaired or reconstructed. Referred to the Committee on Roads and Bridges.

The Hospital Board invited the Council to visit the hospital during the week. It was decided to visit the hospital to-morrow afternoon at four o'clock.

The Council was requested to ensure into the matter of the Police Magistrate's fees and fees, presented their report recommending that the Council memorialize the Lord-Governor in Council to limit the amount of the annual salary, 1897, between J. J. B. Flint and the County of Hastings.

The Council felt that Mr. Flint did not deserve the \$200 salary, and that the County and they felt that his services could be dispensed with. The Warden declared Mr. Flint, he thought that the Council had no right to interfere with the salary of a Magistrate.

Mr. H. B. Carey left for Deseronto on the steamer North King Sunday night. Mr. Carey expects to locate in the Bronx City.

Mr. G. W. Wath, the new partner of the Halloway & Church, is in the city making arrangements for the arrival of his family.

Mr. D. S. Brown, who has completed a course at O.B.C., left last night for his home in Hamilton, Bermuda.

Mr. H. B. Carey left for Deseronto on the steamer North King Sunday night. Mr. Carey expects to locate in the Bronx City.

Mr. G. W. Taylor, of Weldon, N.C., who has been visiting his father, ex-Ald. Taylor, for two weeks, left yesterday for his distant home.

Mr. Donald Urquhart celebrated his birthday yesterday. His friend in good health and received the congratulations of many friends on the occasion.

The R. A. Lee Holmes, of Kingston, who died in that city on Sunday, is a brother of the late R. A. Holmes, of Deseronto. He was a superannuated minister of the Methodist Church.

SNAP SHOTS AT TIMELY TOPICS.

A leading question—Where is burglar Tom Parsons at?

J. J. J. was captured at Toronto on Saturday. It was a sailing ship and was racing. The pirate also "turned turtle."

What's in a name?

The evidence is overwhelming that a "Grit" reformer never wants to reform anything except when out of office. The country understanding this marked feature of the "Grit" "reformer's" character should know where to keep him in the public interest.

The shareholders of Canada have decided to cut the wages of their employees 10 per cent, beginning on July 1st. This action has been brought about on the refusal of the Dominion Government to restore the tariff in force previous to last session. On the present duty they claim that the United States makers can underbid the Canadian makers, and unless they cut down expenses they will be run out of the market. This action is a strong all over Canada, and so the cut will be a universal one throughout the Dominion. Another "blessing" due to Grit rule.

This action has been brought about on the refusal of the Dominion Government to restore the tariff in force previous to last session. On the present duty they claim that the United States makers can underbid the Canadian makers, and unless they cut down expenses they will be run out of the market. This action is a strong all over Canada, and so the cut will be a universal one throughout the Dominion. Another "blessing" due to Grit rule.

A TACIT ADMISSION.

A few days before the close of the session Mr. McDougall, M.P., asked Sir Wilfrid Laurier if he had written a letter or any communication to His Eminence Cardinal Rampolla at Rome to the following effect:

OTTAWA, 30th October, 1897.

"His Eminence, I made known to you, in the month of August last, when Your Eminence did me the honor to grant me an audience, the happy result which was the result of my mission. I had the honor to be received by Your Eminence, and the profound impression which he made on me by his high Christian virtues and his talents as a statesman—I say statesman, and the expression of his too strong—had created in all classes of our population.

Having now returned to my country for several months, I wish to make known to Your Eminence that, if these happy results are to remain permanent and effective, it is desirable, if not necessary, that the mission of Monsignor Merry del Val should be renewed, or rather continued, and that he should be present in the midst of us for a more or less prolonged time as the accredited representative of the Holy See.

He has established, among my return, that there is among a certain class of Catholics an underlying agitation against the work accomplished by Monsignor Merry del Val, a work of pacification, concord and union.

"The same reasons of state which inspired His Holiness in the affairs of France, and which caused him to refer to the Catholics of this country the duty of abandoning the old spirit of the past and to accept the state of things as it is, has quite as much force in Canada as in France.

"Such is the opinion of a great number of the Catholics among us. I admit that it is not the unanimous opinion; this very divergence of opinion only renders more necessary among us the presence of a man at once firm and conciliatory. Monsignor Merry del Val, and of one who above all must understand all the danger there is of exaggerating the men who are sincere, honest, and who wish to be faithful to their duties as Catholics, and who are also faithful to what they believe to be their duties as citizens.

"May I be permitted to ask Your Eminence to be good enough to lay these considerations before His Holiness, while assuring him at the same time of my profound respect and of my filial attachment.

"Accept, His Eminence, the expression of the high consideration with which I remain, etc., etc."

To Mr. McDougall's inquiry Sir Wilfrid made reply, according to the Globe:

"I have no answer to make on matter private and confidential and not of public interest. I say further to my honorable friend that if he wishes to know whether or not I wrote such a letter he should at least have produced the letter. I have no copy of the letter that is a line of material, showing that a part has been suppressed, and that the letter has been garbled."

Sir Wilfrid was evasive, as usual, in his reply, but virtually admitted that he wrote the letter. Canadians will form their own opinion whether such a letter is not of public importance to Canada. The letter will cause some hard thinking in Canadian minds.

SIR J. A. CHAPLEAU'S WILL.

The Deceased Statesman Leaves \$10,000 to the Church.

His Library Will Go to Laval University. It is a Gift Estimated at Worth \$10,000. The General Assembly reports to the House of Commons the following resolution: "Resolved, That the House do adopt the report of the Committee on the Report in the Assembly."

Montreal, June 15.—The remains of Sir Adolphe Chapleau, clothed in his military robes, lay in state in the large hall of Laval University.

Rumor has it that Sir Adolphe's estate will reach a little over \$100,000. Of this sum \$50,000 will go to his unmarried sister, to revert at her death to Sir Adolphe's nephews and nieces.

His library, consisting of about \$10,000 worth of books, will go to Laval University. The report of the Committee on the Report in the Assembly, submitted to the House of Commons, is of great interest, and contains a number of interesting details of the life of Sir Adolphe. The report is a tribute to his high character and his great services to his country.

At the meeting of the General Assembly the report of the Committee on the Report in the Assembly was discussed. The report was a tribute to the high character and great services of Sir Adolphe.

THE RECORD

...BROKEN...

A Spot Cash Purchase!

IT'S a fact—we will now break the record in clothing selling.

We, last week, closed a deal with the Sanford Mfg. Co. (Canada's foremost clothing manufacturers) for an immense quantity of men's suits for spot cash. They comprise a great variety of colors, and not one suit in the lot is worth less than \$7, and part of them are worth \$8. We want to

TRIM THEM INTO MONEY

quick, and will offer the choice of the entire lot at

\$5.00 THE SUIT.

Our north window is full of these suits, so you don't even have to come into the store to be satisfied that they are dandies.

You will find that the more thoroughly you make comparisons in clothing before buying, the more you will appreciate the wonderful bargains we offer. We challenge any clothing house in Canada to come anywhere near our prices.

We don't wish to bore you with blatant boasting or deceive you with false promises. Come in and see if we are not as good as our word.

THE CENSORSHIP RULED.

Omaha, Neb., June 15.—W. J. Bryan first expressed himself upon the Spanish-American war in a speech delivered at the dedication of the Nebraska monument to the fallen soldiers of the war.

Madrid, June 15.—The Spanish press has increased its optimism, based on the belief that Germany intends to prevent a demonstration of Manila by making a naval demonstration. The newspapers express themselves in favor of offering Germany the following concessions in return for her taking the initiative in checking America; firstly, naval stations not cooling ponds in Spanish Oceania; secondly, the right of free trade in the Philippines; and thirdly, the right of free trade in the Philippines.

London, June 15.—The morning papers published long accounts of the battle of Manila. Wants Austria, Russia and Italy to Help Him Block U.S.

The successful Klatschan Expedition may be repeated in the Far East. Kaiser's policy in the Far East is important. A correspondent says they should start a nation that of their presence in Manila waters.

London, June 16.—Information has been received in European capitals that Germany is planning to attack Manila. The Emperor has sounded Italy to see whether she will join with Germany, Russia and Austria in sending to either check the annexation of the Philippines by the United States or their control to any other power.

A Nagasaki dispatch says that when the German warship Kaiser sailed a few days ago it was currently reported in Japan that she intended forcing Lower Bay of Manila.

Germany has now two battleships, one first-class, three second-class and two third-class cruisers in or about Manila.

Washington's View of the Situation. Washington, June 16.—A Cabinet officer declared last night that any intervention by Germany in the Philippines means war with Germany. The United States intends to hold them, and will tolerate no interference from any country, he said.

The Administration, it is stated, apprehends trouble, however, and has even gone so far as to assure from the Naval Bureau a statement of the strength of the fleet. This shows that Germany's son force is somewhat inferior to ours. The presence of their warships, it is thought, have a deterrent influence on the ambitions of the Kaiser.

Germany's Threatening Attitude. London, June 16.—The Berlin correspondent of the Daily News says: "It seems almost impossible that Germany can have the idea of raising a war with the United States by interference at Manila. Nevertheless it is equally impossible to ignore the significance of the fact that Germany is repeating the successful Klatschan expedition are evidently floating in the minds of the Kaiser's advisers, whose influence is so great that the matter deserves attention."

More of It. London, June 16.—The Berlin correspondent of the Times says: "The Marine Police Correspondent, which is often officially inspired, and other papers, express the hope that some permanent result, such as the possession of a harbor, will be the outcome of the presence of the German squadron at the Philippines. It would be a mistake to attach over-much importance to these assertions, but the presence of Admiral von Diederich's squadron there is certainly significant."

Why the House Was Buooyant. London, June 16.—The Madrid dispatch to the Daily Mail says: Premier Sagasta has informed me that the rise in the House to-day was due to telegrams announcing that the inclination is felt by Russia to intervene in the Philippines.

READY FOR GERMANY.
Uncle Sam has 108 Ships in Commission and Will Break No

Washington, June 16.—In the House of Representatives yesterday Mr. Berry, speaking of the Philippine situation, said that while not advocating the retention of the islands, the United States should brook no interference upon the part of Germany, as was intimated as being possible. He said if Germany should attempt to defeat any rights belonging to America, then the United States with its ships in commission and 70,000,000 people would be ready to respond to the demand for resisting any interference. Mr. Berry's remarks in this connection were applauded generally.

E. W. WILSON.

England's Best Naval Authority, on Concentration of German Ships. New York, June 16.—A London special to The Journal says: E. W. Wilson, England's best naval authority, has made the following statement:

"Concentration of the German warships at Manila is threatening. It looks as if Germany intended to seize a coaling station in the Philippines, or in the Sulu archipelago, a dependency of the Philippines, which was recently suggested in Germany and attempted in 1888. Germany may argue that the United States has not yet conquered Cuba, which is separate from the Philippines, and may therefore be purchased from Spain. Germany is an honest broker. She generally lays hands on other people's goods when there is trouble abroad. The Cuban squadron in the far East includes two third-class cruisers, three second-class and two third-class cruisers. Five of these are at Manila, and have been ordered there. Dewey, with the Charleston and his Monterey, will be strong enough to take the whole lot. It is not likely that Germany will risk a quarrel with America. She may try to bluff the States. She knows that England is to be reckoned with. It may be said that the United States is not a naval power. It is not. The British fleet in the far East

Very thoughtful man, Mr. Wilson, is of the opinion that Germany is an honest broker. She generally lays hands on other people's goods when there is trouble abroad. GERMANY WILL NOT INTERFERE.

Washington Advised From Berlin Why Ships Are at Manila.

Washington, D.C., June 16.—The State Department has been officially advised that reports that Germany would make an issue in the Philippines are unwarranted. German ships would be on hand at Manila to afford protection to German subjects and property, but Germany had no thought of intervention.

Destinations in Ireland.

Ottawa, June 16.—Hon. Edward Blake has cabled Hon. Mr. Fitzpatrick, Solicitor-General, that the reports of extreme opposition in the south and west of Ireland are quite correct, and any aid from Canadians will be gladly accepted.

WAR RUMORS WHEN CUBA FALLS.

Great Britain Assumes When the Powers Will Step In.

New York, June 16.—A Washington dispatch to the World says: Great Britain, through its Ambassador at Washington, has informed Secretary of State Day that when the United States captures Cuba Spain will be forced to sue for peace. The British Government is of the opinion that the United States will be able to take the island there will be nothing left for her on which to continue the struggle. Sir Julian Pauncefote has been strong enough to take the whole lot. It is not likely that Germany will risk a quarrel with America. She may try to bluff the States. She knows that England is to be reckoned with. It may be said that the United States is not a naval power. It is not. The British fleet in the far East

LIFE REDUCED TO 30 YEARS.

The Government Will Release Some of the Irish Dynamiters This Year.

London, June 16.—The Government has notified Mr. John Redmond, Parliam. member of Parliament for Waterford, that in the coming revision of the sentences passed upon the Irish dynamiters implicated in the alleged conspiracy of 1885, when there were numerous explosions or attempts at explosions in London, Liverpool, Glasgow, Birmingham and elsewhere, life sentences will be reduced to 30 years. This means that H. H. Wilson, Timothy Featherstone, H. Dalton, Terence McDermott and Finnigan will be liberated during the present year. If their prison records are clean.

BATE WAR IN SUICIDAL.

English Shareholders of the C.P.R. Urged to Object to Tax Exemption.

London, June 16.—The Daily Globe says the presence of Sir William Vane in London affords a favorable opportunity for shareholders here to make known how strongly they feel regarding the suicidal policy which the Canadian Pacific Railway is pursuing in keeping up the rate war.

The English artillery team which is to visit Canada will probably sail on August 18. Money has not been subscribed as freely as was expected. When \$50,000 is needed to cover the expenses of the trip, only \$300 has come into the hands of the treasurer.

Kisses Going to New York.

New York, June 16.—The High-liners of Toronto are to be guests here on Fourth of July.

Heavy Rain.

FOR WEAKNESS AND DEBILITY.

Consumption is often caused by a weak state of the blood, permitting the germs to obtain a foothold. That Dr. Ward's Blood and Nerve Pills cure disease and invigorate the system, the following evidence amply proves:

I suffered for two years with what the family doctor claimed was a nervous case of consumption and debility, telling me that my life was but for a few months at the best. As I was about to give up, I picked up your advertisement and resolved thereupon to give Dr. Ward's Blood and Nerve Pills a trial. The first box of them worked such a wonderful change I felt that at last I had struck a medicine that would help me. I continued the use of the Pills, receiving from them day by day fresh strength and vigor, in fact friends of mine that had not seen me for some time hardly knew me, so great was the change that Dr. Ward's Pills worked. Out of the fulness of my heart in the joy of my being rescued from the grave, comes this testimonial. I shall, as long as God permits me to live, herald forth their usefulness and life-giving power to all afflicted by that monster of disease that attacks the human system, thereby repaying you for its victim, thereby repaying you for its victim, thereby repaying you for its victim.

Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 3 boxes for \$1.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of information free.

through the treacherous as gently as she slipped toward the water, very carefully and lovingly and cautiously, so that he might not be hurt in the fall and might be picked up by those who were standing near her? While thinking that the train struck her and hardly enough of her body was left to gather into a funeral caisson, it was that? Wicked suffering. Like Christ. Pangs for others. Won for others, suffering for others. Death for others.

When I was coming away from the church I saw an illustration in past age when during the great forest fires in Michigan mail carrier on horseback, riding on, distressed by those flames which had swept over 100 miles, saw, as old man by the roadside, dismounted the old man the horse, and rode off, leaving him to walk half the doors of the church set in

its Christian eloquence. No new gospel, only the old gospel in a way related to the time. No new church, but a church to be the asylum, the inspiration, the practical sympathy and the eternal help of the people.

But while half of the doors of the church are to be set open toward the world the other half of the doors of the church must be set open toward the sin. You and I carry here a brief case. We want somebody to teach us how to get out of this life at the right time and in the right manner. Some fall like you some go stumbling out of life, some go gracefully out of life, some go turning out of life. We want to go singing out, cycling, triumphing like you. We want half the doors of the church set in

THE LATER SHOE

"What's a shoe for?"

"To cover the foot."

"That'llly!"

"Not for a moment," says Painful Foot. "Well I guess not," shivers Cold Feet. To tell the truth, neither can they do much more than TO FIT FEET." Slater Shoe blantly puts in:

"Now you hit me," cries Corney Toe. "Just my size," sighs old Bunion Joint. "Who'd'a thought it," whined Punch-ones. Are you hit—shoe wet.

the mail carrier perished. Just like
him, descending from the glories of
heaven to join us on the way of deliv-
erance, then falling back into the flames of
perdition. Peace for others. We
are others. Death for others. Vicious
suffering.

Again, I remark that sanctuary help
is not to come through the prayers of all
the people. The key of the eternal door
is hung on one hinge, a gold
hinge, the hinge of prayer, and when the
other hinge of this door is not
quite so open. There are many people
sending their first Sabbath after some
years of non-attendance. Will your
prayer do for them? How will it help
the one who has been here. Here are peo-
ple who have not been in church before
for ten years. What will your prayer do
for them? Will your prayer help
sinners? Here are people in crises of
temptation. They are on the verge
of despond or wild blundering or both or
stolid. What will your prayer do for
them in the way of giving them strength
or courage? Will you be chiefly anxious
about the fit of the clothing that you put
on for the forebowed shoulders of prayer? Will
you be chiefly critical of the rhetoric of
the pastor's petition? No. No. A thousand
people will feel that that prayer is far

from that way, half the sermon that way.
We want to know how to get across the
threshold of the world into the land of
permanence. We do not want to
stand doubting and shivering when we
go away from this world. We want to
have the exhilaration of a dying climb
upward. The father telling me the story.
When he said to me, "Is the path nar-
row?" he answered, "The path is nar-
row; it is so narrow that I cannot walk
in arm with Christ, so Jesus goes
ahead, and he says, 'Mary, follow.'"
Through the church gates set heaven
ward for many of your friends and
mine has gone!

The last time they were out of the
house they came to church. The earthly
pilgrimage ended at the pillar of public
worship, and then they marched out to a
bigger and brighter assemblage. Some
of them were so old they could not walk
without a cane or two crutches. Now they
are eternal juvenescence. Or they were
so young they could not walk except as
the maternal hand guided them. Now
they bound with the hilarities celestial.
The last time we saw them they were
dressed with material of a pitifully low
order, but now they have no fatigue and
no difficulty of respiration in the pure
air of heaven. How I wonder when you

men ought to drop out, and temples of
ought to be cast into dust, and jubilee
of deliverance ought to brandish their
trumpets. In most of our churches we
have three prayers—the opening prayer,
which is called the “long prayer,” and
the closing prayer. There are many people
who spend their first prayer in arranging
their apparel after entrance and spend
the second prayer, the “long prayer,” in
talking is were through and spend the
third prayer in preparing to start for home.
The most insignificant part of every re-
ligious service is the sermon. The more
important parts are the Scripture lesson
and the prayer. The sermon is only a
man talking to a man. The Scripture
lesson is God talking to man. Prayer is
man talking to God. Oh, if we under-
stood the grandeur and the pathos of the
exercise of prayer, instead of being a dull
exercise we would imagine that the room
was full of devils and angelo apparitions.

Now, my friends, the old style of church
will not do the work. We might as well
talk about going to the moon as talk
about going to the mountains of heaven
without the help of the Lord. A draft from
the mountains of heaven would do you good.
Complete release you could stand very
well. If you got on the other side and
had persecution to come back, you would
not come. Though you were invited to
come back and join your friends on earth,
you would say: “No, let me tarry here
until they come. I shall not risk going
back. If a man reaches heaven, he had
better stay here.”

Oh, I join hands with you in that up-
lifted splendor:

When our shores is won at last,
Who will count the billows past?

In Freyburg, Switzerland, there is a
fountain of a true 400 years old. That foun-
tain was planned to commemorate an event.
About ten miles from the city the Swiss
conquered the Burgundians, and a young
man wanted to take the thing to the city.
He took a tree branch and ran with
such speed the ten miles that when he
reached the city war the branch he had
had only strength to cry “Victory!”

GERMANY'S WEAK RETORT.

Strong Assurances That It Will Not Hurt Canada.

The Products of the Dominion are Not Out from the Benefits of the Most Favored Nation Clause. The Decision of the Tariff Commission is Officially Cited as Favorable to the Trade and Navigation Returns show a One-Sided Trade.

Ottawa, June 17.—The decision of Germany to exclude Canadian products from the most favored nation clause is far from unexpected here, and has long been known in Ministerial circles.

Mr. Richard Cartwright, on being shown a copy of the despatch "yesterday," said: "We do not complain. It was only what we might expect. If we were given the benefit of the most favored nation clause, we could not expect better treatment than we are now receiving."

Germany is very one-sided, and it will not hurt us. It is only a question of time when we will be able to show them that we are not a one-sided nation.

with provisions for the destitute. Rendering reports of suffering and starvation are reaching this city from such shore settlements. Severe persons, said, have died of hunger in St. John, where the poor are living on coffee, doled out by the residents. A steamer does not reach there soon as food, it is feared scores will perish. From Quirpon to Cape Norman there is not a barrel of flour. In a small cove the bottom of White Bay, six families related to half a barrel of flour. Five walked across the bay, looking for food—where? When they found it it was like living skeletons and nearly all. They informed the captain, who took them some provisions. They said if they failed to get back within a week their families would be starved to death.

Another case is reported where a bread had been existing on a loaf of bread six days. The Rev. John Lynch, a Jesuit priest, residing in Concho, despatched a messenger to this Cove with a gram containing in these appalling terms: "Send on provisions at once; if boards to make coffins."

Distress is also reported in Salmon's, Perry Cove and other places in the de Verre district. The weather is also and depressed.

\$2,000 Men on the Trail.

San Francisco, Cal., June 20.—W. F. Perry of this city, who has just returned from a trip across White Pass trail, says that he did not find conditions there nearly as bad as had been reported. Three miles he raised horses and built, and it is completed to the lake by the Yukon.

Mr. Perry says the number of prospectors between the head of Lindeman and Fish Lake is about \$7,000. The first movement to Dawson began May 1st.

BELLEVILLE, ONTARIO, TUESDAY, JUNE 21, 1898.

NO. 43

RECEPTION TO THE POPULAR EVANGELIST.

Bridge St. Sunday School Receives Mr. Ranton—The Epworth League.

It is an old saying in Belleville that whatever bridge at Sunday School and its Superintendent undertake to do, is done well. The At-Home in honor of Mr. Ranton held in the parlors of the church last night was no exception to the rule. A very large number were present to testify to the respect and esteem in which the popular evangelist was held by them, and had there not been a misconception as to the nature of the gathering, the spacious room would have been unable to hold those who desired to be present.

The first hour was spent in social recreation, and an opportunity was given for the members of the congregation to become better acquainted, for strangers to be introduced, and for the members to renew acquaintance with Mr. Ranton. The pastor, Rev. C. E. McIntyre, then took the chair and an excellent programme was presented. Piano solos were given by Miss Timmerman and Miss; a vocal solo by Miss Morris; a recitation by Miss Chisholm; and a reading by Miss Hill. The pastor then delivered a most interesting address, in the course of which he emphasized the necessity of encouraging a social spirit in the League.

Mr. Wm. Johnson also spoke, emphasizing Mr. Ranton for his work here and expressing a hope for his success in other fields. Rev. A. H. Banting delivered the previous speakers and the audience for their kindness to him and expressed his regard for the people of Belleville. At the close of the meeting, the social life could be said to be as well as any other department of Christian activity. He wished the young people to be in the League work, and urged them to cultivate the social and intellectual departments as well as the spiritual. Rev. A. W. Connel, on behalf of the students and faculty of Albion College, invited the members of the League to attend the closing concert and promenade to be held next Monday evening. This invitation was accepted on behalf of the League by Mr. F. A. Larke, President. The singing of "Blest be the Tie" brought the proceedings to a close.

THE ELECTION TRIALS

Conservatives Will Ask Judges to Fix Dates for Another Series This Week.

Although the Liberals are spreading the rumor that no more election, private will go to trial, it is the intention of the Conservatives to ask the judges to fix the dates of trial for each of the election positions this week. Although the Liberals have been claiming for some time, the Conservative workers have not their faces against giving up the fight.

The Cash System.

ALTHOUGH heretofore our terms have been nominally cash, yet credit has gradually crept in, until now in justice to the cash principle we feel that we must make a change.

After full consideration we have decided that on and after the 1st of July next we will strictly enforce the Cash System in connection with our business.

It is needless to call attention to the losses included in running a credit business, such as office expenses, interest, bad debts, etc., as the great majority of people are fully aware of its disadvantages, and recognize the "Cash System" as the correct business principle, beneficial alike to buyer and seller.

Standing as we do directly between the world's producers of our different lines of goods and the consumers of the Bay of Quinte district, we realize our position to be one of public service, and hesitate not to declare it to be our ambition to make this service the most efficient to be found in Canada.

This ideal position we feel can only be reached through the "Cash System" with the worry and leaks of the credit system cut off and the energy heretofore expended in entering, rendering and collecting accounts, turned into the channel of wide-awake business management we believe we will occupy a vantage ground far in advance of our present position.

We have no intention by this action to reflect upon any. In obedience to our convictions we adopt a rule of business, which we are firmly convinced will be advantageous to our customers as well as to ourselves, and ask for the hearty co-operation of all in the mutual interest.

Having fully determined to firmly adhere to this rule in the future, our customers will kindly not ask us to transgress.

Again asking for your cordial co-operation and assuring you of our best services at all times, we are

HOG TRADE IN DANGER.

Mr. Wm. Davies Warns Exporters of
What May Happen—Inferior Bacon
as Result of Feeding Clover
and Corn to Pigs.

The following letter received from the
President of the Wm. Davies Co. (Limited),
of Peterborough, draws attention to the
danger to the Canadian export trade in
bacon arising from injudicious feeding of
stock.

To the Editor of the INTELLIGENCER.
SIR,—There has appeared in your valuable
journal and various other publications from
time to time statements to the effect that
quality of Canadian bacon, and its high
standing in England, compared with Amer-
ican.

This is being very seriously jeopardized
by the feeding of clover and corn to fat-
tening hogs. The result is, bacon over-
whelmed with soft trash, far inferior to the
best American. Hog feeding has been high-
ly advantageous to farmers, making them
wealthy and contented, but this cannot go on, unless the feeders do
their share in keeping up quality.

If farmers persist in feeding grass and
corn, the pork packers will have to do one
of two things: refuse to pay for them until
they are dressed and inspected, then grade
price according to quality, or lower the price
to such a figure as will cover the loss on the
poor quality.

One thing is certain, we cannot go on pay-
ing over a cent per pound more for Canadian
than American unless the standard of qual-
ity be kept up.

Of course those farmers who are feeding
as described, think they are doing a clever
thing, but they are simply killing the
goose that lays the golden egg. Canada
would not be the first country to lose
prestige and profit. Germany once did
large export bacon business, but it is now a
thing of the past. The Irish feeders have
been primarily careless in this regard, and
trade in bacon has dwindled to small pro-
portions and appears to be dying industry.

It is a pity that the reputation of our
bacon is being so seriously injured by the
carelessness, and if Canadian hogs are not
kept up to the highest standard, Canadian
bacon will quickly return to the level of
American, from which, by painful and
abortive efforts, it has been lifted, leaving
undisputed: "A word to the wise is
sufficient." We hope it will be in this case.

(Signed), WM. DAVIES.

The Yacht Waikiki.

An interesting visit to our harbor last
night was the yacht Waikiki, which arrived
at seven o'clock and left early this morn-
ing. The owner, Capt. Rowe, a retired
navy officer, is on the boat with his wife
and intends to do a great portion of the
water system of the Continent. He is a
resident of Tampa, Fla., left New York
several weeks ago with his yacht, and
down the coast to the Gulf of Mexico, be-
lieving chased once by an American cruiser
and once by a Spanish vessel, under the
impression that it was a despatch boat.
He sailed through the Mississippi and
Illinois canal to Lake Michigan, and
calling at all the principal towns and cities
on the way. Capt. Rowe intends to go
down the St. Lawrence and along the coast
of Labrador and then to the west and
to his home. Both he and his wife are
owners of wheels and they can thus see
the sights of the town at their own
convenience. It was a delightful trip. The
captain is full of the incidents of his trip
and expresses great admiration for the Cana-
dian towns he has visited.

The Waikiki is run by means of naphtha
and the fuel alone during the trip has cost
over \$2,000. It is fitted up in most
luxurious style, and is a regular place
boat. The crew consists of one man and
the cook, in addition to the Captain.

The End

Is fast approaching. The poster entertain-
ment closes this evening with Chalaupka's
concerts, Combs Soap-bath and many
other attractions. High tea served from 5
to 8 o'clock at 25c. Children admitted
during the afternoon for 5c. A big time
is expected. Staples groceries for sale at
standard prices.

No other preparation has ever done so
many people to such good as Hood's Sas-
saparilla, America's Greatest Medicine.

Magistrate Flint's Court.

The case of F. Morier, who is charged
with an unusual offense, was enlarged
until Friday.

Nellie Babcock, fifteen years of age,
was arrested at the instigation of her father,
on the ground that she was an incorrigible.
After hearing a great deal of contradictory
evidence, Mr. Flint sent her home on trial
for a week, and if she does not behave her-
self and stay in school, he will send her
to some reformatory.

Slasher Cummings, whose face frequent-
ly appears in the police court dock, was ar-
rested this morning for drunkenness and
disorderly conduct.

A cyclist was fined \$2 for riding on the
sidewalk.

W. H. Vanasse was accused of assault
and abusive language by one McGregor.
The charge was proven, but the plaintiff
declined on behalf of Vanasse and the
Magistrate reserved sentence.

The Drill Hall Was Crowded Last Night

The ladies of the W.C.A. who have
given so much self-denying labor to the
cause of the Hospital must have been
pleased indeed to observe the large number
of old and young who found their way to
the entertainment in the Drill Hall last
night. Those who attended could not but
have been delighted by the program
and by the appearance of the hall. The
booths and their occupants looked their
prettiest, while the program, although
not of a light character as that of the
previous night, was one which none could
fail to appreciate.

O'Flynn's Bible Class Orchestra was
present and abundantly sustained its
excellent reputation, by the selections
rendered.

Hogan's Alley, where may be seen the
combination of incongruities which is
such a marked feature of the character of
Mr. Hogan's countrymen, was visited by a
large number. Funnel and July also
attracted many.

St. Andrew's Church Bazaar Brigade
was present and gave a splendid exhibition
of marching and physical exercises. So
well indeed did the young ladies go
through the movements that some mem-
bers of the XV, who were present were
observed to turn green with envy. Capt.
Saward and Sgt. Sharp deserve credit
for the manner in which the Brigade has
been drilled. The members are: Captain,
Miss Robinson; Bugler, Miss Ponton;
Miss Harris; Hay, Taylor, S. Taylor,
Gunn, MacMillan, Casey, Leavena, E.
Harris, Graham, Gordon, Fringle, Martin,
Matheson, Milne, L. Wilson, B. Wilson,
M. Wilson, Ormond, J. Donald, H. Don-
ald, Norrhead, Keith and Anderson.

The balance of the programme consisted
of tableaux, all of which were designed
with artistic skill, and executed with
fidelity.

The first was the Hospital, which gave a
view of one of the wards, with a pretty
nurse, Miss Ferguson, in the performance
of her duties. Portraits Not Guaranteed
followed, the parts being taken by Miss
Hope Sewell and Master Lawrence Sewell.
The pretty youngsters were much admired
by all the mothers who were present.
"National Mothers" followed, by fifty
little girls arrayed in the costumes of the
different nations. The array of sweet
young faces which was presented to the
audience took its breath away. "Good-night"
followed by eight little tots in night-dresses
with lamp. Their names were: Ellen
C. Lapan, Edna Wallace, Grace Garrett,
Irene Harkins, Edith Croubie, Nellie
Solem, Lottie Bulpitt, and Florence Davis.
Portraits Guaranteed, undoubtedly the most
unique in design and most faithful in
execution was taken by Miss Robinson.
Milburn, Clarke, Anderson and Newbery.
The closing tableau was a very faithful
representation of a Japanese Tea by Mrs.
(Dr.) Perry G. Altmann, Misses Cyle and
Holmes.

NOTES.

In our description of the booths in yester-
day's issue we omitted to mention the
Cornwallis Booth, considered by a great
many to be the finest in the building. This
is in charge of Mrs. (Dr.) Clarke, Misses
Williamson and Gibson. Their sale last
evening was so large that their whole
stock was cleared out and a fresh supply
had to be procured. The ladies are very
grateful to the Cornwallis Club for the
large gift of silk and fancy work. No one
should fail to visit this most attractive
booth.

Badly Damaged.

NOT BEYOND REPAIR, HOWEVER.
It has been reported that one of the
men-of-war belonging to the American
squadron was badly damaged and had been
sent for repairs. She will again be ready for active service in
a few weeks. A warship is a big thing to
handle, and yet so delicate as a watch.

On good authority, John H. Root,
Hamilton, Ont., was consumed as incur-
able of Diabetes, Kidney Disease, and
Sciatic, the results of Southern Fever.
He was repaired by Ryckman's
KIDNEY CURE, and is now doing
active service as night clerk at the Royal
Hotel. His story is best told in his own
words given us in the form of a SWORN
STATEMENT.

"Twelve years ago I contracted fever
in Central America, and after passing
through a tedious, protracted course of
physical wreck I was afflicted with a
complication of diseases arising from im-
pure blood and disordered general con-
stitution, and was told by different
physicians that I had about every disease
that could possibly arise from the above
causes—such as Sciatic, Lumbago,
Diabetes, Kidney and Liver Disease,
and general debility. Science and skill
failed to cure me, but Ryckman's
KIDNEY CURE did it in medicine. It re-
moved every ache and pain from my
body, and to-day I am a healthy man in
every respect. I recommend the medicine
most heartily, and give this sworn declara-
tion without solicitation. Aug. 27th, 1898,
before a Commissioner."

JOHN H. ROOT.

trait of Mr. Root, and other sworn
declarations, free on application.

Rev. C. W. Watch Arrives.

Rev. C. W. Watch, the new pastor of
Holloway St. Church, with his family ar-
rived in the city to-day and received a
warm welcome from his congregation. He
is also being a preacher of great popularity,
and a prominent social reformer. Mr.
Watch will undoubtedly be a strong ad-
vocate of the cause of the colored people
here, and we cordially welcome both
himself and his family to the City of the
Ray.

The recently purchased parsonage, which
Mr. Watch will make his home, has been
greatly improved during the past few
weeks. The interior has been completely
re-papered and re-painted and several
changes made in the arrangement of the
rooms.

Not a Heart Failure!

Dr. Agnew's Cure for the Heart—The
Greatest of Heart Healers—Relieves
in Thirty Minutes.

Many who bear it out that in many cases of heart
disease which have been treated for years by phy-
sicians and pronounced hopeless this wonderful
remedy has proved the life-saver—not a cure-all
it is a heart specific—so potent—so quick in re-
sulting—no remedy known to medical science to-
day specifically for the heart has so honestly filled
the niche for which it was formulated—and the
claim is borne out by the testimony of thousands of
cured ones and the endorsement of most eminent
physicians on the continent—If there is uneasiness
about the heart—shortness of breath—suffering—
fainting or smothering sensations—drowsy-
tendency, any or all of these denote heart derange-
ment—and neglect of the slightest symptoms may result in sudden
taking off—one dose relieves in thirty minutes in most acute cases.

Dr. Agnew's BATHNAPAL POWDER—Painless and pleasant to use—attacks
the disease like magic—clears the nasal passages—relieves the inflamma-
tion and heals the affected parts—the only known remedy that gives
quick relief and a permanent cure in cases of catarrh—hay fever—
throat—tonsillitis and catarrhal diseases.

Dr. Agnew's OINTMENT—Simple and effective remedy for itching, blind
and bleeding piles—and all burning, itching, stinging or disfiguring skin
diseases—its application gives instant relief.

Dr. Agnew's three pills cure constipation, flatulency, biliousness—
dizziness—loss of appetite and depression—little pills—little doses—

REVERIES

BY REV. DR. J. C. VANDUSEN.

—A Belleville lady, whose falling seems
to be under curiosity, wrote to the editor
of the Montreal Witness asking him to
give her his candid opinion as to the com-
parative merits of different religions. He
did not know anything at all about it.
The lady should have known better than
to expect for one moment that the "Wit-
ness" man would ever do anything so
naughty as to read a novel, or write a
modern, or any work more sensational than
a Pansy book. But an individual who has
no particular quality of conscience in re-
gard to novel reading may perhaps be per-
mitted to gratify the intellectual longings of
the fair Believerian.

The novel of to-day is undoubtedly two
hundred per cent. in advance of the eight-
eenth century novel as far as literary
merit is concerned—it is two-thirds
smaller.

The novel of the past was the very
first volume and a half was devoted to a
recital of the pedigrees of the hero and the
heroine tracing them back to the ancestral
lineage, the remainder of the second volume
brought them down to the period when
they no longer lived in dread of the paper-
man, and the third volume contained the
story.

It is a question, however, if the one
volume affair is not as painful in its effect
as the novel of the past. The novel of the
past was a library, which once passed under
the eye of the reader, was a library. The
latter, it is true, often affected the imagi-
nations of innocent maidens to such an
extent that they refused the matrimonial
proposals of honest young men, on the
supposition that a stray drop of mercury
in the blood would be a disgrace to the
family. Sometimes the nobility did not
marry because they had read the novel of
the past, and sometimes they married
because they had read the novel of the past.

PONTON VS. DOMINION BANK

The Action is to be Tried at
Cobourg, Whitby or
Peterborough.

Objections to Belleville—The Bank
Represents its Fears and Judge
Declines to Make a Change—Effect
of an Affidavit.

The action brought by W. H. H. Ponton
against the Dominion Bank for \$50,000
damages for malicious prosecution, wrongful
dismissal, and false imprisonment, in con-
nection with the charge of the theft
of \$20,000 from the bank at
Napawan, will be tried at Cobourg, or, if
Mr. Ponton prefers it, at Whitby or Peter-
borough. Mr. Ponton must make his
choice among those three places within ten
days.

The question was argued yesterday at
Osgoode hall, when Mr. Aylesworth, Q. C.,
acting for the defendants, appeared
from an order of the Master in Chambers
refusing to change the place of trial from
Napawan to Toronto, but changing it to
Belleville.

All of the events which gave rise to the
action took place at Napawan. The de-
fendants, the Dominion Bank, urged that
there could not be a fair trial at Napawan,
because in the County of Lennox, and
Addington, from which a jury would have
to be selected, there was a strong feeling
in favor of Ponton. They further con-
tended that a similar feeling existed in the
County of Hastings, where Ponton and his
family resided. The bank offered to pay
the additional expense for a trial at Toron-
to or at such other place as the judge might
name.

The judge intimated that the place of
trial should not be changed to Toronto,
but that the difficulty of securing a fair
trial at Belleville had been sufficiently
shown by an affidavit put in since the
Master's order, and proposed to name
some neutral place where there could be a
fair trial at a reasonable expense and with
reasonable speed. The result is as stated
above. In other respects the order of the
Master is to stand with the costs of the
action in the cause.

Cheap Paths.

Street Surveyor Hulse states that he
can build bicycle paths, similar in manner
to the new macadam on Murray's Hill,
for 10c per yard. This is equivalent to
about \$250 per mile for a path 10 feet
wide.

The sidewalk on Dunbar st., West Belle
ville, is in a dangerous condition.

The Sons of Scotland expect that the
Kingston camp will have an excursion to
Belleville on August 24th.

The X.V. Battalion Band will play on the
balcony of the Hotel Belleville at 11:30 in the
morning and 3 to 1:30 in the afternoon.

MINOR MATTERS TALKED ABOUT.

What Shall be Done With the Bay
Bridge?—A Hundred for the Batta-
lion Band.—Our City Fathers get
Down to Business.

The following matters were present at
last night's meeting of the City Council:
Mayor Johnson, Ald. Falkner, Doyle,
Chisholm, Hangerford, Farnham, Levesque,
Shawyer, Harris, Naylor, Clarke, Mr.
Cannon, Wallace, Pantar, Grilla, Petty,
Ashley, Dunning, Lott and Bagot.

A communication was read from Ald.
Chauncey Ashley informing the Council that
he had purchased some lots on Station st.,
and contemplated making some alterations
which would block the water from the drain.
He asked that the Street Surveyor be in-
structed to arrange for the carrying off of the
water in the meantime.—Referred to the
Committee on Public Works.

A communication from Assayist Wells
asking the Council to provide him with a
cabinet in which to keep an exhibit of
minerals was referred to the Executive.

A communication from Porter & Far-
nham, solicitors for Mr. John C. Lake, ask-
ing for damages sustained to Mr. Lake's
horse on Mill st. and asking that the
thoroughfare be repaired, was referred to
the Executive.

A communication from Mr. W. N.
Ponton, President of the West Hastings
Fair Association, asking the Council to
arrange with the Freeholders to allow
the Society the free use of the grounds
on Sept. 14 and 15, was referred to the
Executive.

The report of the Executive and Public
Works Committee was read.

Council went into Committee of the
Whole to discuss the Reports, Ald. Wal-
lace in the chair.

The recommendation of the Executive
that the X.V. Battalion be granted the
sum of \$100, so that the band might be
retained in the city for July let, was agreed
to. A band stand will also be erected.

Mr. R. J. Graham was granted an extension
of his exemption.

A communication was read from Mr. W. N.
Ponton, a shareholder in the Quinte
Bridge Co., urging the City to take action
to protect its interests.

The Mayor gave a very complete
and lucid explanation of the exact
position of the matter. The City
had taken \$30,000 stock in the bridge,
putting at the time that the income
would be large enough to more than pay the \$1-
50 annual interest on the debentures
issued. However, the construction of the
bridge was faulty and the large expenditure
necessitated for repairs had, even up to
the late Alex. Sutherland for \$35,000,
but together with the arrears the sum
due on the estate on Dec. 31st, 1891, was \$38-
00. Other claims would bring the in-
debtedness of the bridge up to about \$50,000.
Mr. Sutherland's executor would move
Tuesday (to-day) at Toronto for an
immediate foreclosure of the mortgages.

His Worship thought the best thing to be
done was for the City, as the largest share-
holder, to call a meeting of the shareholders
to discuss matters. The question to be
considered was whether it would be better
for the City to hold the bridge, or whether
it would be wiser to let it fall into the
hands of a private company who would be
bound to maintain it, in self-defence. In
reply to a question of Ald. Petty the Mayor
said he did not know whether a private
company would be bound to maintain the
present rules or not.—Referred to the
Executive.

Several accounts were presented and the
Committee room was passed.

Ald. Wallace moved the appointment of
a special committee to have charge of
Victoria Park. Ald. Bogart moved in amend-
ment that the Market and City Property
Committee have charge of the park. The
amendment carried. In the course of the
discussion Ald. Hangerford took the op-
portunity of reminding the Council that he
was the originator of the park.

Ald. Doyle moved that the rules be
suspended to allow him to introduce a motion
that tenders be called for the renting of the
cathedral.—Lost.

Ald. Chisholm moved that the rules be
suspended to allow him to introduce a
motion that the insurance on the elevator
be reduced from \$14,000 to \$8,000.—Lost.

Council then adjourned at an early hour.

THE SPARROW PEST.

A Good Way to Get Rid of the
Nuisance.

For some time the Provincial Game De-
partment has been flooded with enquiries
about English Sparrows and the last way
the Game Warden has reported that he
has investigated and has reported that the
most successful way of getting rid of the
pest is to kill the birds and eat them.

The birds are just as good as game birds
for food. According to Mr. Tinsley, they are
eaten the best kind of a dumpling, and are
eaten in great quantities in Great Britain.

The Game Warden believes that a double
purpose will be served in this way. The
birds could be eaten, and at the same time
would not be exterminated. The birds,
on being killed, should be placed in hot
water, skinned and then dressed like chick-
en.

ON ALBERT'S LAWN.

An Enjoyable Evening Spent in and
Around the College.

Hypocritical indeed would be the
visitor who did not admire the scene on
the lawn of Albert College last evening.
The occasion was the annual reunion and
promenade concert, and in addition to the
Albert students there were also present
the members of the different University
Leagues of the city, the students of the
Business Colleges and the Belleville young
people generally. The evening was an
ideal one, the College buildings were
a blaze of light, and the lawn was tastefully
decorated with lanterns of all shades and
sizes.

THE ASSAULT ON SANTIAGO.

Great Battle Will Begin To-Day, So One Report Says.

American Land and Sea Forces Heavily Engaged in Their Attack upon the Spanish Armada in the Bay of San Pedro de Macoris.

New York, June 29.—It is stated that a general assault will be made to-day on Santiago. All preparations have been made to make it a success, and there is no doubt it will be successful.

Their Plans of Campaign.

London, June 29.—The Star yesterday prints a story from a foreign correspondent to the effect that the plans of Admiral Cervera's fleet left him no alternative but to retreat, and that the Spanish fleet was being driven back to the bay of San Pedro de Macoris.

The correspondent adds: "This fleet will attack Admiral Sampson's fleet to-day. Admiral Cervera attempts a sortie immediately with the commencement of the land battle, and the Spanish fleet will be too much preoccupied to help General Shafter."

THE AMERICAN ADVANCE.

Only Three and a Half Miles Between the Attacking Force and the Blockaded City.

At the front, on the Rio Guano, Monday, June 27, per Associated Press. A detachment of the American army, under the command of General Lawton, has advanced to within three and a half miles of the city of Santiago.

General Lawton's brigade rests on the road to Santiago de Cuba. The third line of the American army is now within three miles of the city.

BICYCLE CLOTHING COMFORT.

We are right into it this season and in the best of shape for supplying the proper clothing for wheelmen. We are making a specialty of this part of our business and we carry the suits, odd pants, stockings, belts, sweaters and caps. Our prices you will find the cheapest in the city. We submit you a few of our lines with prices and ask for an inspection of the goods. We don't decry other merchants, but simply lead the procession.

Suits. Stockings.

A special line of imported suits, made in the regular way, buckle bottom pants, double coat, only \$3.00. A nice grey mixture, double breasted pants, a splendid good fitting line and a good waist, only \$3.50. A good suit, made of brown mixed tweed. This line is sold all over at \$5, our price \$4.00. A well up-to-date line, the jackets are all buttoned on, both coat and pants, every cap is styled, every seam is faced, the pants are made of a strong line of outpocketed cotton, only \$5.00. A very well made both in Norfolk and regular suit. All the latest improvements, a big variety of patterns \$7.00.

SWEATERS.

A nice line of boys' all wool sweaters 20, 28 and 30, only 50c. A lot of good strong cotton sweaters, all sizes for boys, only 25c. A nice line in men's sizes, all wool, different colors, all sizes, only 75c. A splendid assortment of sweaters and jerseys, made in the proper shapes at 35c. And the price that is popular, we have all the new and up-to-date goods, with plain neck and plaid. All colors and styles. Worth at least 75c, our price 45c. and 50c.

Belts. IN CONCLUSION.

We claim, without fear of contradiction, that the only complete stock in bicycle clothing in Belleville is at our store. You may find splatters here and there, but we have a complete stock in every particular. Don't go to blind. Compare our prices with those of any clothing store in town. Our latch string is always out, but no one will tease you to buy if you come in.

THE TRAMP DEFIANT.

The Special Member of Policeman Twoboy Shooting Again.

London, Ont., June 29.—There was considerable talk on the street yesterday regarding a reward for the man who captured the notorious tramp, Constable Twoboy, County of Front Attorney Magistrate, when spoken to about the matter in the afternoon, said that it would be a shame and a disgrace to allow the villain to escape from the country for lack of encouragement by the Government, as well as by the public. I think a reward should be offered, \$500 at the very least, which would be a great inducement to the man who would capture the tramp, who is now in the hands of the law.

THE ST. LIBOIRE MURDER.

Strong Evidence Against Baptist Guillemain.

He Once Confessed That He Was the Murderer, But Afterwards Retracted and Charged a Neighbor With the Deed — Prisoner Passed ON Hills Identical With Those Known to Be in Possession of the Deceased.

St. Hyacinthe, Que., June 25.—The Crown at the Assizes here yesterday made a start in its task of attempting to weave a web of incriminating evidence around the person of the accused, by calling the testimony of a witness who had seen the murder of his uncle, Jean Baptiste La Plante, near St. Laibore on Oct. 30 last. No previous trial here has ever attracted so much public attention. The witness will no doubt be examined and the trial will occupy about two weeks.

J. H. Blanchette, the Crown's Prosecutor, called first the witness, John J. Lavoie, a French Canadian, who lives in the town of Hull, near St. Laibore, Me., on the Gulf of St. Laibore. On reaching his destination the previous day, he saw a man, the murderer of his uncle, La Plante, who he remained during his stay in Canada, last being until the 15th of the following month, when he was ordered to leave on the night of Oct. 30.

At the inquest no particular suspicion was directed against him. When questioned, Guillemain said he was in Montreal at the time of the murder. After his arrest Guillemain confessed to the Hildford authorities that he had committed the deed at the instigation of his aunt, Madame La Plante. Subsequently, after waiving extradition proceedings, he amended his confession, on returning to St. Louis, by exonerating the woman, but declared Louis Tetreault, a neighbor,

Mr. Blanchette then pointed out that the deceased, after receiving \$800 in bills of the Eastern Township Bank, at St. Hyacinthe on Oct. 30, had returned home the same day, and was seen alive and well a short distance from the La Plante household. Without doubt, a murder under aggravated circumstances had been committed, and the Crown Prosecutor proposed to attach the responsibility to the accused. In conclusion, the Crown Prosecutor dealt with the position of the accused, who was charged with those stolen from La Plante, also dwelling on the contradictory story and confessions related in extenuation.

The widow of the deceased was then called. Her husband, she said, had about \$3 in his possession when he left for St. Hyacinthe.

Mr. F. X. La Plante, the father of the murdered man, related, with circumstantial details, the following incident at La Plante #200 in St. Hyacinthe on the afternoon of Oct. 30.

At 10 o'clock, Mr. Morin, who witnessed the transaction, gave corroborative evidence. The money was drawn from the bank owned by Philippe Bibeau. It consisted of \$10 bills. Both he and the aged father saw the money in the score, the deceased put the money in a pocket of his overcoat.

Mr. Oskar Le Doux, paying teller of the bank, recalled having paid J. B. Morin \$100 on Oct. 30. He did not observe Morin respecting the denomination of the bills. Mr. La Plante, an accomplished French Canadian, the deceased, was seen on presentation of a cheque.

Mr. J. G. Froler, a fur, furs, merchant, of St. Louis, told the jury that he met the deceased in St. Hyacinthe on Oct. 30 and paid La Plante an obligation of \$100. He did not observe Morin, but he admitted that he met La Plante at the village station about 10 o'clock on the same day.

Partial Testimony.
The most interesting evidence of the slitting was given by Tomasima La Pierre, a female driving in company with William and John La Pierre on the highway between 6 and 7 o'clock in the evening, he recognized in the darkness Henry Houppert, a noted as a load of hay, and the slitting of the car. This was at the point where hay arpent on the La Pierre's estate dwelling. Further on, a minute later, near the junction of the roads, where the deceased resided, La Pierre's car was stopped by a group of men. The trio dismounted and discovered the prostrate form of a man. It was impossible to distinguish the form in the darkness. The witness then made his way to the car and saw the slitting of the car. He then, maintaining his silence, asked for a lantern.

La Plante's Body Found.
Madame Guillemin at once exclaimed: "Oh, I hope it is not my husband. I am expecting him from St. Hyacinthe." All this time Guillemin sat with the children beside the stove. The prisoner afterwards took down the lantern, and, in attempting to light it, turned the wick down into the oil, beyond recovery. La Piero was accordingly obliged to seek a light at Nadeau's, the nearest neighbor. On joining his companions, the body on the road was found to be La Plante's. Although the body was still warm, life appeared to be extinct. La Hyacinthe

the buck, with his legs crossed. The face was covered with blood, still steaming in the raw night air. The witness summoned Dr. Berthiaume from the village without delay. In cross examination, he said it was impossible that the shift of the rig had caused the fatal event, as the horse whined when several feet from the body. Gideon Blivenew gave corroborative testimony.

"I guess I've been victimized," That's

the guess of many a hard-working man, who, worn-out, nervous and sleepless, has been for months paying exorbitant bills to a high-priced doctor without a dollar's worth of benefit. Frequently the guess is entirely correct. There are too many doctors who are only lifted out of obscurity by the sale of their bills.

the business man or working man who gets run down and in ill-health from overwork, the advice and treatment of a physician who has cured for the thousands of cases he has cured, and for the thousands of dollars he has charged. For thirty years Dr. Pierce, of Buffalo, N. Y., he will be known as a physician. For thirty years Dr. Pierce has been the consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo.

He is the discoverer of a wonderful medicine known as Dr. Pierce's Golden Medical Discovery, which has made a new line for broken down men and women. It whets the appetite, purifies the blood, makes digestion perfect and the liver active. Through the liver it is directly on every organ of the body, driving out all poisons and disease germs. It is the great blood

maker, floor-builder and nerve tonic. It cures nervous prostration and exhaustion, makes liver trouble, rheumatism, blood and skin diseases, and all other cases of consumption, weak lungs, spitting of blood, lingering coughs and all ailments. When you ask a dealer for the "Griffin Medical Discovery" insist upon having it. A dealer is not a physician and has no right to advise some substitute.

When the trouble is of long standing write to Dr. Pierce, who will answer letters and prescribe without charge. Very serious or complicated cases need the long surgical treatment, sometimes, and it is necessary to come to the Invalids' Hotel and Surgical Institute, at Buffalo, for personal treatment and care. **Dr. Pierce** can

A PREMIER WANTED.

San. Mr. Warburton Has Been Kicked to the Bench.

Charlottetown, P. E. I., June 29.—Hon. Charles Warburton has accepted the Kings County Court judgeship.

It is understood that a meeting of Liberals in the Legislature will be held forthwith to make the selection of his successor. The names of Donald Farquharson, for some time acting Premier in ex Patens Administration; Hector C. Foulmouth, Attorney General in the Warburton Administration, and Benjamin Rogers, member of the Warburton Administration, are mentioned for the Premiership.

Personal and political dislikes and jealousies complicate the situation, and local influences are almost sure to follow any election.

Possibly Sir Lewis Davies may make an arrangement acceptable to the Liberals of the province.

SUICIDE OF FRANK NEWSOME.
Toronto, June 29.—Thirty-five thousand dollars is a lot of money to award in premiums in ten days, but that is the amount the Toronto Industrial Exhibition, which is to be held this year from August 29 to September 15, will give, five-eighths of the amount being devoted to the live stock, dairying and other agricultural classes. Entries close, it might be said, but they are not yet open.

the head in the Hotel St. Claire last night. He was about 25 years old, registered at the St. Claire Sunday evening. He appeared to be under the influence of liquor then. He was not seen around the hotel much, however. Last night he took his overcoat to Louis Drossart's pawnshop and secured a loan of \$5. He gave the name of Thompson there. Constable says that the man showed signs of drink. The body was found by

...the Campbell, a porter of the hotel, at 1.30. It was lying on the floor, clad in night shirt. The revolver had been held very close to the right temple. The bullet had passed through the brain and out at the top of the head. No noise, either or anything was discovered in the room or among the effects which could throw any light upon the motive of the suicide. The body was taken to Gains Road. 'Poorer Dickens will hold a
